the political fanatics

and his staff captive.

You've waited patiently

tors tried in vain to arrive
at a peaceful settlement.**

**Now it's up to you and
your band of commandos
to get the captives out!**

Choosing the Level and Mission:

After the title screen is displayed, you will see a list of three levels and five missions.

The three levels increase in difficulty from Lieutenant to Captain and finally Commander. The higher the level, the greater the number of searchlights and the quicker the enemy.

The five missions in order of increasing difficulty are Training, Target, Ultimatum, Trigger, and Jupiter. As the difficulty increases, the searchlights become quicker, the number of enemy increases, and they are more difficult to attack. In addition, the amount of time you have to complete your mission decreases at the more difficult levels:

<u>Mission</u>	<u>Time Limit</u>
Training	18 minutes
Target	16 minutes
Ultimatum	14 minutes
Trigger	12 minutes
Jupiter	10 minutes

The training mission is a good place to begin. There are no captives in this mission and it will give you experience in commanding your forces.

The Objective:

Your goal is to rescue all of the captives without losing any members of your team. To mount an effective assault, you must first position your snipers around the embassy. Your rescue team will then be lowered by helicopter onto the roof of the embassy.

Playing the Game:

After choosing the level and mission, you will see a blueprint map of the area surrounding the embassy. The red X's mark the chosen spots for your snipers. You must place at least one sniper at a designated spot. Press the A button to continue.

Next you will see the starting location of Mike, the first member of your sniper team. Press the A button to continue.

THE RESCUE PHASE:

Your rescue team members Ron, Dick, and Kemco, will be lowered from a helicopter to the roof of the embassy. You then have the choice of commanding your snipers or the members of your rescue team. The map will now show you the names of the remaining members of your sniper team and the names of the rescue team:

INSIDE THE EMBASSY:

After breaking your way into the embassy, you will now begin your sweep through the building to locate the captives.

The map in the lower left corner will show you the layout of the floor you are on as well as the locations of any enemy (green dots) and captives (blue dots). The red arrow marks your current location and direction.

Use the control pad to carefully move from room to room:

- ← Turn to the left (counter-clockwise).
- Turn to the right (clockwise).
- ↓ Turn around (about face 180).
- ↑ Go forward.

If you encounter the enemy, you can fire your machine gun by pressing the A button. While the A button is pressed, the control pad will aim the gun. Eliminate all the enemy and pick up any captives you find. You can then use the stairs to

move to the other floors of the embassy. Be careful to monitor the remaining time indicated in the upper right corner!

The game is completed when you have eliminated all of the enemies or when all of your rescue team members have been lost.
